Herrmann and the Cheat.

A characteristic story is told of Herrmann. The incident took place at a well known London club, where cards were one of the favorite games indulged in for stakes by no means insignificant. It was observed that on these occasions a certain member almost invariably rose a considerable winner. At length so marked became the good fortune of this member that another determined to probe the matter to the bottom. One evening, accordingly, at his own rooms, he introduced Herrmann under a false name to a select party of the members, among whom figured the suspected one. At the close of the night's amusement, when the guests had departed, the host turned to the conjurer and demanded his opinion. "Not a doubt of it," replied Herrmann, "our friend cheats, but exactly how I can't say yet. Give me another chance." A second meeting was subsequently arranged, and play began. Suddenly Herrmann, looking straight at the supposed culprit, exclaimed, "Where did you get that king?" "Where?" replied the other. "Out of the pack, of course." "Impossible, my dear sir," retorted Herrmann, "for I happen to have all the four kings here," and thereupon he calmly drew them from his sleeve and laid them on the table.—St. James Gazette.

Dress Reform For Babies.

The latest invention in the dress reform for babies, which is rapidly becoming more popular, is that all the garments can be put on at once. The first garment is a princess slip of fine flannel or crepe, made with high neck and long sleeves. The next is a sleeveless garment of nearly the same shape and material, and last comes the nainsook dress. All three fasten together at the back with three buttons. The abdominal band is sheer and not tight, and the feet are left bare.

Costly Pipes.

Among the pipes shown at a jewelry establishment was one of meerschaum, with an amber mouthpiece, the bowl being crowned with a gold mounting that covered the rim around the top and extended down the sides to the depth of perhaps a quarter of an inch below the edge. On top the mounting was flat and smooth; below the edge, on the sides, it was etched. The price of this pipe was \$110. The owner of a pipe with a gold rim around the top might smoke it, or it might be that he would let it lie on his table.

Jeweled pipes are not an article of common sale, but they are not so uncommon as to be remarkable. Such pipes are usually mounted to order, and they are probably always bought for gifts. They are variously mounted, sometimes with a band of diamonds and rubies around the bowl at the top, sometimes diamonds are set around the stem where the mouthpiece joins it. A jeweled pipe may cost \$250.

Silver mounted meerschaum pipes at \$50 are articles of regular sale. There are pipes of this sort at prices ranging from \$20 to \$75. These are not carved pipes, but usually perfectly plain. They are of the finest materials and workmanship and of fine designs.

There are perfectly simple little briar pipes with a plain silver mounting and amber mouthpiece that sell at \$15, but the briar is the very choicest and hand-somest, the amber mouthpieces of the finest quality and joined to the pipe by a lock stem, and all the workmanship on the pipe is of the best. They are the very finest of briar pipes.—New York Sun.

The word "fie" or its equivalent in sound exists in all languages and in every one is expressive of disgust. In the Icelandic the word "ptui" means putridity.

The other day a New Yorker started across Broadway. He was in the heyday of ambitious, vigorous youth. A puff of wind blew an insignificant atom, almost invisible, into one of his eyes. It blinded him. He clasped his hands over his eyes and staggered on, only to be run down and killed by a cable car. That man's death was due to an insignificant trifle, an atom of dust that was barely visible under the microscope. It is thus with health. Men find that they are suffering from a trifling disorder of the digestion. It doesn't amount to anything, they think, and time is precious. They don't stop to correct it, but stagger blindly on and are run down in the heyday of ambitious youth by death.

Neglected indigestion is the first cause of all manner of wasting diseases and all forms of nervous disorders. Dr. Pierce's Golden Medical Discovery cures all disorders of the digestion. It invigorates the liver, imparts a keen, hearty appetite and causes the life-giving elements of the food to be perfectly assimilated. It purifies the blood and builds healthy tissue. It is the great blood-maker, flesh-builder, and nerve tonic. It cures consumption, wasting diseases and all disorders of the nerves.

"I was a sufferer five or six years from indigestion," writes B. F. Holmes, of Gaffney, Spartanburg Co., S. C., "also from sore stomach and constant headache. I then used Dr. Pierce's Golden Medical Discovery and Pleasant Pellets, which in a few days gave me permanent relief."

"The People's Common Sense Adviser" explains symptoms of ailments common to every family, and suggests remedies. It has several chapters on woman's diseases and weaknesses. An edition in heavy paper covers will be distributed absolutely free. Send the World's Dispensary Medical Association, Buffalo, N. Y., 21 one-cent stamps, to pay the cost of mailing only. Cloth binding may be had for 31 stamps.

ASKING CONTRIBUTIONS FOR CUBANS.

The Central Cuban Relief Committee appointed by President McKinley asks for the immediate formation of efficient committees in every State for the collection of funds, food, clothing and medicines for Cuba's starving people, to be transmitted to General Consul Lee at Havana.

What the patriotic Cubans most needed and desired from the United States was official recognition of the undisputed fact that a state of war exists in Cuba and that the insurgents, who are carrying on this war against the Spanish Government, be granted the rights of belligerents. That would give them the privilege of buying arms and munitions of war in the United States and shipping them to Cuba at their own risk. This right is accorded the Spaniards, but it is denied the Cubans, in fact American war vessels are stationed along the coast of Florida to prevent aid being sent from the United States to Cuba. If a party of men attempt to leave the United States for the purpose of assisting the Cubans they are arrested as filibusters and, if convicted, imprisoned for months in American prisons. On the other hand Spain may buy in the United States and ship to Cuba, without interference by the Federal authorities, all the arms and munition of war that it requires.

The United States Senate months ago passed a resolution recognizing the Cubans as belligerents. This resolution has been pigeon-holed in the House, and the President in his message treated the Cuban question in a manner entirely satisfactory to Spain, and of course, utterly displeasing to the Cubans. Now the President, as a sop to the American people, who are almost unanimously in favor of Cuban independence and displeased at the Administration's truckling to Spain, appoints a relief committee to solicit alms for the Cubans.

It is stated by correspondents, who are now in Cuba and know something of the condition of the people, that from Havana to Matanzas there is an unbroken line of villages and settlements in which the inhabitants are starving. In many of the settlements deaths from starvation are of hourly occurrence and thousands have died. It is estimated that 200,000 people are in the direst need, and that no relief from America can save them while the country is under Spanish rule.

Meetings are now being held in various places in the United States at which resolutions are adopted expressing deep sympathy for the Cubans and requesting Congress to recognize them as belligerents. These expressions of sympathy for the Cubans are unheeded by the Administration at Washington because it would depress Spanish securities to recognize the Cubans as belligerents and that would displease the money kings.

OBJECT TO CARPET BAGGERS.

Senator Pettigrew of South Dakota, a Silver Republican, is chairman of the Committee on Indian Affairs. All nominations made by the President for Indian Agents are referred by the Senate to the Committee on Indian Affairs. That Committee, by its Chairman, has made an adverse report upon the nominations made by the President for agents at many reservations in the Western States and Territories. Among those reported adversely is the name of Fred B. Spriggs, who has been appointed to the Nevada Agency at Pyramid Lake.

Senator Pettigrew believes in "some rule" and, unlike our Nevada gold friend, he is not swerved from that belief by fear of offending the President. He knows that the men nominated by Mr. McKinley to be Indian Agents in Nevada, Colorado and other western states, are not citizens of those States, but were sent from the east and given the offices for services rendered gold-bug candidates in the presidential campaign. He is opposed to giving places at the Federal crib to carpet baggers, and he recommends that the Senate do not confirm the eastern men selected by the President to act as Indian Agents in the west. In the case of the Nevada Agency there were four or five residents of this State who applied for the position, but their claims were ignored and the place given to a citizen of New York.

CHARLES L. KURTZ, the leader of the opposition to Hanna is firm in his belief that they have the "fight as good as won," notwithstanding the claims of the Hannaites that Mr. Hanna can now count on seventy-four votes. Mr. Kurtz claims that the same assertion was made regarding the Hanna strength at the organization of the legislature, but when the votes were counted they fell short and the same result will occur again when the time comes. Mr. Kurtz gave out to the press yesterday that Marcus Aurelius would not be elected Senator from Ohio. At any rate, not just at this time.

It has been decided to cremate Durrant's body and the cremation will take place to-day at the Odd Fellows crematory. This will be an appropriate ending of his career on earth but it is extremely doubtful if the fires of a crematory or the fires of the other place will ever be hot enough to purify his soul.

TELEGRAPHIC NOTES.

Congress was occupied yesterday with the debate on the civil service. The House adjourned at 2 o'clock.

Four negroes were lynched in the vicinity of Little Rock, Arkansas, in the past four days. The work was done by different mobs.

The Ohio Coal Miners' Convention decided yesterday to ask for an advance of ten cents per ton when the contract for the next year is made.

Jas. R. McCown, a Justice of the Peace and prominent citizen of Bedford, Iowa, after shooting his divorced wife shot himself. Both are dead.

Durrant's body will be cremated at the Odd Fellows' Crematory at San Francisco to-day. The body is lying in the parlor of the Durrant home.

A construction train on the Chattanooga and Lookout Mountain road was wrecked near Chattanooga yesterday, injuring the conductor and six negro workmen.

The low boat Percy Kelsey of Pittsburgh blew up on the Ohio river near Glenfield, Pa., yesterday morning, killing six or eight of the crew and injuring several others.

The window glass factory at Alexandria, Ind., commenced work yesterday morning. There was a general jollification and the men danced until time to go to work. Twelve hundred men are employed.

It was wired to Allentown, Pa., that six men were buried alive by a cave in the Walter Beach Slate quarry yesterday afternoon. A little later two men were taken out dead and it is believed the others were killed instantly.

Miss Julia G. King of Minneapolis, sister of Katherine King, the victim of Murderer Harry Hayward has lost her suit against the Traveller's Accident Insurance Company to recover the face of an accident policy on her sister's life.

Marshall Chadwick the suspected murderer of young Hayden near Farmington, Washington, on the night of October 22, was taken from the jail by a mob at 2 o'clock yesterday morning and hanged out of a window of the Court House. The officers were taken unawares and delivered the keys of the jail.

The Ohio Senatorial situation looks more favorable for Hanna. His managers counted on 73 votes yesterday afternoon and those at his headquarters were jubilant. Strong influence is being used to pull down men from the opposition and one or two have fallen. Representatives Manuel and Griffith have spoken publicly in favor of Hanna. The anti-Hanna men now admit that after securing the organization of the Legislature they made a serious mistake in adjourning from Wednesday to Monday and allowing the members to return to their homes. This gave an opportunity for such members to be confronted with indignation meetings at their homes, which may turn the tide in favor of Hanna. Griffith of Union County stated that he did not want to vote for Hanna, but if his constituents demanded it, he would obey. This has increased the effort to pull Griffith for Hanna. Bets are posted from \$100 to \$5,000 on Hanna's election, even money; but there are no takers. The opposition, however, are just as confident and believe they will win the day. They concede the loss of one and possibly two, but this leaves Hanna two short on joint ballot.

ARCH OF THE STATES.

One of the Features of the International Exposition.

Extensive preparations are under headway for the Trans-Mississippi and International Exposition, to be held at Omaha, Neb., from June to November of this year. Fronting the great entrance to the Exposition grounds, and to remain after the magnificent buildings now being erected have disappeared, is the Arch of States, built of massive masonry and commemorative of the union of the States in the Trans-Mississippi region. In harmony with the idea, an invitation has been issued by Governor Silas A. Holcomb of Nebraska to all of the executives of the States named, asking them to contribute one course of stone from the quarries of their respective States. The foundation layer will be composed of Nebraska stone of enduring quality, and on this the courses contributed by the different States will be laid in symmetrical order. The form of the structure is that of a triumphal arch, fifty feet high, twenty-five feet deep, and sixty-eight feet to the top of its parapet. The opening in the arch is twenty feet wide and thirty-five feet high to the keystone. Strong, simple abutments on either side assist the arch to carry an extremely rich and broad frieze of a double arcade of twenty-four arches, containing shields decorated in color with the coats of arms of the Trans-Mississippi States. Upon the opposite side the frieze is repeated and the coats of arms of the remaining States of the Union are displayed at the ends. The approximate cost of construction, material and ornaments is about \$20,000.

The Steel Cases Again.

The Auditor has again vetoed the Specialty Manufacturing Company's bill. The following is a copy of his communication:

RENO, Nev., Jan. 8, 1898.

To the Honorable Board of County Commissioners, Washoe County, Nevada.

DEAR SIRS: Section 9, of the Act defining the powers and duties of Boards of County Commissioners says, that

"No demand shall be approved, allowed, audited or paid unless each several item date and value composing it be indorsed upon the same, by the order of the Board of County Commissioners, together with a reference to the law, order, contract or authority, by title date and section, authorizing the same." (Gen. Stats. Nev. Sec. 1950.)

The claim in question is as follows, to-wit:

RENO, Nev., Jan. 3, 1898.

Washoe County, To the Office Specialty Mfg Co., J. W. Bowen, Agent, Dr.

Jan. 3. One metal case as per your advertisement of Jan. 3, 1897. \$1,498.00

As this bill clearly does not comply with this provision of the law, which prohibits me from allowing or auditing a demand against the County, unless it is complied with, I respectfully return the claim to your Honorable Board, with my refusal to allow or audit the same endorsed thereon.

Very respectfully yours, B. C. SHEARER County Auditor.

A Praiseworthy Proposition.

Miss Nellie V. Davis of Carson, in an open letter in the Carson Appeal addressed to the "Friends of Humanity," tells of a visit to the Hospital for Mental Diseases last summer, and suggests that all who can, donate one or more bound books or magazines to the patients and through this, a nucleus for a substantial library will be formed.

She suggests that if the books are sent to the Appeal office she will attend to the delivery of them to the Hospital. Miss Nellie's interest in the poor unfortunate is praiseworthy, and as she says, many of the dreary hours could be whittled away by the inmates in reading some book that might change their thoughts from the fancies and hobbies that flood their poor minds and in time benefit, if not restore them entirely.

If some young lady in Reno would join forces with Miss Davis and both work to the same end a library at the Hospital would soon be an assured fact.

The story told by Mrs. John E. Griffiths, wife of a Representative from Union county, O. has caused a decided sensation in political circles. According to this story, Hanna's agent took her to the Nail House on a plea that her husband wished to see her there. There she was taken into the presence of Hanna, who, according to her story, told her that he was in position to be of great service to her husband if he would vote in the right way, and said that he could through his influence place her husband in a position that he could not otherwise hope to reach.

Church Notices.

The Lyon County Times says: Joseph Douglass, of Virginia City, placed an attachment on the Peck concentrating machinery in the Douglass mill at this place, last Wednesday. The attachment is for \$44,185.35, alleged to be due Mr. Douglass for money loaned C. V. Peck to repair the mill and put machines in it to work the Douglass and other tailings.

BREVITIES.

Griff Parry took the train for California last evening. He goes on a short vacation.

Miss Cora McFarlin will return to Lovelocks this morning to resume her school duties, after the holiday vacation.

Mrs. Carrie Clarke Ward has arranged for a season's engagement in Montana and will leave for that State in about ten days. A complimentary benefit will be tendered her before her departure at which some of the best local talent of Reno will appear.

One of the features of the menu at the barbecue to be given in honor of the National Stock Growers' Convention at Denver on the 27th of this month, will be roast buffalo. Five of the animals are now being fattened for the occasion.

A public meeting will be held at the Methodist Church on Friday evening next to discuss the most practical methods of helping the boys and young men of Nevada to lives of sobriety and honor. Dr. J. E. Stubbs, Rev. Frederic C. Lee, Hon. F. C. Norcross, Judge Currier, Rev. F. Flawith and others will deliver short addresses. A question box will be a feature of the meeting. Everybody asked to come. 3t.

How to Take a Bath.

"I cannot understand why it is," says a physician, "that when I order a cold tub bath for my patients, the temperature to be at 65 or 70 degrees, they never can understand how they are to do it. I suppose I shall let the water stand overnight," says one. But it is not necessary to let the water stand overnight. We are living under civilized conditions, and the very simple plan of turning on the hot water faucet for a few minutes will moderate the water to exactly the proper temperature. Some people do not understand taking a cold bath anyway. I don't wonder they take cold. To bathe properly, when the water is in the tub turn down the night-clothes and bathe the face and neck. Then, stepping into the tub, kneel on one knee and with the sponge throw the water first over one shoulder and then over the other down the spine. That causes the reaction which makes the body warm. Quickly sponge over the rest of the body, make a few motions forward in the water, as if swimming, and then jump out into the bedroom slippers. It need not take more than a moment. Such a bath is very beneficial to many thin blooded people."—New York Times.

A Cure For Indolence.

Sugar will keep you from getting lazy. At least that is what a medical authority says who has been making some recent interesting experiments on the source of muscular exertion. He administered a liquid containing 30 grains of sugar to a person who had heavy daily work to do and who was kept in ignorance of the nature of the experiment being tried upon him. On the days when the sugar was omitted it was observed that the laborer was unable to accomplish so much work and that he had less ease in doing it than on the days when he ate the sugar. It is said by some that a person who habitually eats sweets has great muscular endurance.—New York Tribune.

Swiss Glaciers.

Who owns the glaciers and moraines of Switzerland—the state, the cantons or the townships? As no grass grows on them no one seems heretofore to have cared who owns them, but by a recent decision in the Canton Valais they belong to the communities within whose limits they lie.

Lavender is still used in English linen closets, but the supply is threatened with extinction. The growers in the village of Hitchin, one of the chief centers of the lavender industry, assert that owing to a succession of bad seasons the plant is dying out there, and that, moreover, they cannot compete with foreign imitations of lavender water.

Fire at Keeler.

It was reported yesterday afternoon that the town of Keeler, on the Carson and Colorado railroad was on fire and in imminent danger of being totally destroyed.

Later news was to the effect that a couple of stores, the hotel and two or three smaller business houses were burned. The resident portion of the town was not injured. Particulars as to the origin of the fire were not obtained.

The Viavi Work.

In no way can we do more good than in restoring the sick to health. This Viavi will do, it intelligently used.

Have you stomach trouble? Use our Tabloids.

Have you piles? Use our Sano.

Have you catarrh? Use our Catarrh Remedy.

Are you weak and all run down? Use Viavi.

Come and see me and I will fully explain the use of all our remedies.

CHILDREN'S IDEAS.

EXAMPLES OF THEIR CURIOUS VIEWS OF LIFE AND DEATH.

How Young Minds Take Hold on Great Mysteries—Some Afraid to Die, Others Without Such Fear—The Life That Would Please and the Death They Would Choose.

The Rivista Italiana di Filosofia contains an article by Dr. Marpillero on children's ideas of life and death, describing how he questioned a number of young children on these subjects at an elementary school at Rovigo and the answers he received. We quote some of the most curious. In answering the question, "What is life?" the boys were much more bold than the girls. Many children, boys, defined life as "a spirit that runs away as soon as we die." A boy of 9 years philosophically observed, "Life is a sea of troubles, which one may cross well or with great unhappiness." A boy of 10 said, "Life is a thing which is never extinguished," another, "Life is a good work to eat well," another, "Life is an invisible thing, which vanishes when it likes and never returns." A little girl of 10 said, "Our life is a fluid." A small girl of poor condition, aged 8, said, "Life is paradise." A very general answer was, "Life is beautiful," or the opposite, "Life is ugly," and most of the children who thought life the last were of well to do families. To the question, "What is death?" many replied negatively, especially the girls. Very few, and these only boys, noted the phenomenon of death, and one gave an answer: "Death is a pure spirit. The blood dries up; one neither moves nor feels."

Another boy of 8 years gave an answer bordering on popular superstition, "Death is a thing that, when I die, pulls my feet." Another boy of 8 had a tinge of medical knowledge and replied, "Death is when one has more than 42 degrees of fever." Another said, "Death is a thing that one never sees again, never again." To the question, "Are you afraid of dying?" 21 children, all boys, gave no reply; 63, of whom 7 were girls, replied negatively; all the others—that is, a large majority—said, "Yes."

A little girl of 10 of well to do parents gave the answer, "I am not at all afraid of dying because I am tired of living." All the orphans replied in the following sense, "I am not afraid of dying because I want to see my parents again." A little girl of 9 said, "I am not afraid of dying because it is a thing sent by God." A boy of 13 replied, "I am not afraid of dying because I am healthy and have no disease." Another, "I am not afraid because I am strong and healthy." A little girl of 11 said, "I fear death because it might come at night and pull my feet." Another little girl said, "I am afraid of death because it seems that it is my mother who is dead." A girl of 11, who had evidently been told some ghastly stories, replied, "I am afraid of death because it is so ugly, and one day Bernard went to bury a dead person, and it got hold of Bernard and gave him a kiss."

Another boy of 8 said, "I am afraid of dying because I could not play with my sister any more." Another well to do boy said, "I am afraid of dying because when one is dead one cannot see the men gathering the harvest of grapes and so many nice things." A little boy of 6 answered, "I fear death because I shall not be born another time after." The majority of answers to the question, "Do you want to grow old?" were in the negative. A well to do little boy of 9 years answered, "I should not like to grow old because I should have no strength to work and might die of hunger."

A little girl of 9 said, "No, because I should have to work hard for my children, to feed and clothe them." Many girls feared to become ugly, saying, "No, because I should be without teeth," and, "No, because I should be ugly," or gray, or stooping. A little girl said she would like to grow old and have grandchildren. A boy said, "Yes, so that I might go to paradise." Another of 10 years said, "Yes, because I should have finished almost all my wishes." When asked, "How would you like to live?" most of the children were very modest and did not give way to fancy.

Many poor children wished that they might live "on broth and bread," "on rice," "on potatoes," or said, "I don't want to suffer cold and hunger." A child of 6, a boy, said, "I should like to live with my father and mother." Another poor boy of 10 said, "I should like to live content in my own home, because then I am happy." Another poor orphan boy of 10 said, "I should like to have enough to live on and go and be with my father and specially my mother, of whom I am always thinking."

Very few expressed a wish to live in a class superior to their own, but a boy of 7 said, "I should like to live without working and be a gentleman." Another of 6 years replied, "I should like to live well dressed and have a hat and go out walking." A little girl of 9 said, "I should like to live like a lady and never work and always be served." To the question, "How would you like to die?" the answers frequently alluded to family life. A boy of 6 said, "I should like to die in bed with my mother."

One of 10 answered, "I should like to die at 82 years, with my parents by my side." One boy of 11 would like to die "with the hope of finding my parents and brothers and sisters." A boy of 13 said, "I should like to die all alone, leaving no brother or any one else on earth." There were some small boys who wished to die on the field of battle, and others who did not wish to grow old because they would have to serve in the army. Two or three wished to die and have "a fine funeral." One or two were more religious: "I should like to die kneeling before God. I should like to die and go with the Lord and the angels of paradise, with my hands crossed on my breast."—London News.
